September 02, 2025: America Strikes a Boat Alleged To Be Carrying Drugs

On Tuesday, September 02, 2025, the United States of America, under the leadership of Donald Trump, committed murder. The law provides for accountability for the entire organization in these types of criminal activities and we cannot 'look the other way' simply because the murderers are doing so under the color of law. In fact, we must 'look deeper' when the perpetrators are committing crimes under the cover of exhibiting lawful and state-sponsored activity.

I have warned in the past that Donald Trump was committing murders. His constant presence, by an endless stream of criminals, around our home as shown me alot about who Donald Trump really is, what types of thoughts move through his mind, and what types of threats he is making against people in the real world. I have been speaking out for a long time now against Donald Trump and I am continuing to warn the world, and personnel within the United States government: Donald Trump is committing murder through numerous mass casualty events.

On September 02, another mass casualty event occurred wherein the President of the United States authorized deadly force against a boat that was alleged to be trafficking drugs. America is not at war. America hasn't declared war since June 1942. Simply stating that the President is waging a war is not an actual declaration of war and continues to show the depth of Donald Trump's misunderstanding and misapplication of the law to suit his personal desire for toughness. Donald Trump is using terrorism, which means that Donald Trump is a terrorist.

I began speaking out against Donald Trump's escalations a while back. One of the first matters that I brought to the world's attention was Donald's advocacy to escalate the use of the death penalty for convicted drug dealers in the USA. Now, on September 02, 2025, Donald has explicitly authorized the use of the death penalty, without due process, outside of the USA. When I compare these escalations against my legal education, I conclude that Donald Trump is operating well-outside any arguable color of law.

Furthermore, Donald Trump's activities, and the activities of the American military while under the command of Donald Trump are continuing to correlate and coincide with the symbolic God versus satan symbolism that composes my daily work product. For example, on September 02, 2025 we followed the signs as indicated in these two screen grabs:

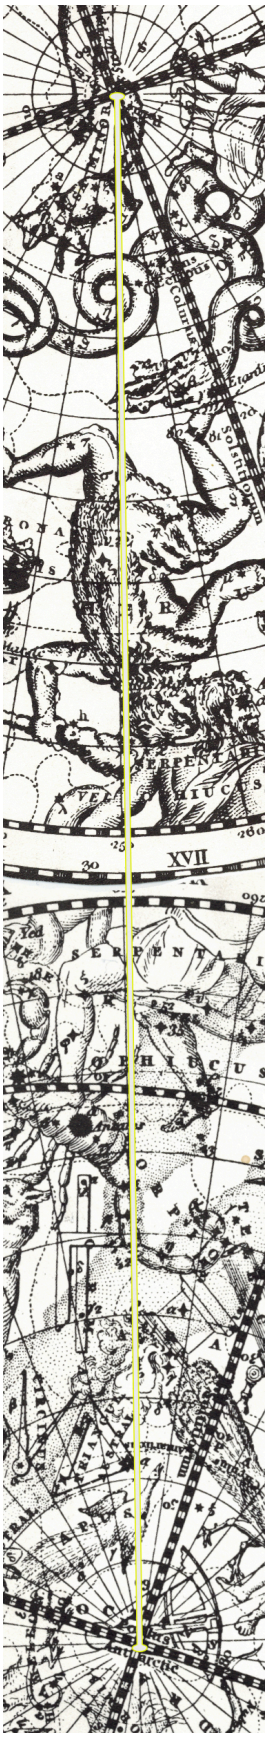
DEGREE 250.5 (251) OF 360 AND DEGREE 10 OF 60.

247	**2025**	September	1			XVII	246	355.0	249.5	360.0	249	240	9
248	**2025**	September	2			XVII	247	355.0	250.5	360.0	250	240	10
249	**2025**	September	3			XVII	248	355.0	251.5	360.0	251	240	11

DEGREE 10 OF 60: These pictures can be interpreted to mean 'crosshairs' on 'the vessel'.

10	Inside, I am	Plowing up the hardened soil below	Heaven's leading impulse		Outside, I am	Storing and using the spirit of	Earth's heavenly yield	

I am also posting the astrological wheels for that day and you can read them for yourself as to whether or not any significance can be gained from the imagery contained in those images.



XVII
SERPENTARIUS
OPHIUCUS

The numbers of 250.5 (251) can also be interpreted to show 2, Yield; 50, Vessel; 25, Perfecting; 1, Lead; 51, Shake. The numbers speak a code that can be used to ‘speak’ messages to those people that are aware of this ancient technology.

This is not the first time that I have witnessed this type of symbolism being expressed through ‘sign language’ and use of ‘signs’ that I am following. I will create a comparison of at least one other instance showing a very similar set of wheels that correlates with another very significant world event when time allows.

Regardless of ‘signs and wonders’ that accompany this event. I am writing to document it as a serious escalation in the dangerous rhetoric and actions that are being taken by the USA government under the command and control of Donald Trump. I have publicly called this to be ‘Nazi-ism’ and I continue to hold to this analysis as true and correct interpretation of what I am witnessing. I am alerting the world that these are the escalating ‘signs’ of a criminal regime that has taken control of the USA military.

I wish that I were wrong, and I wish that I were not spending my morning writing another document to expose this, but these are the days that I am facing as a group of criminals also circles my home like lions stalking their prey.
